Subject: Care home extension at 2 Wallis Road, Waterlooville

Hi Tristan

Hope you are well?

I've got an application in at the moment for the discharge of some conditions relating to a planning permission granted in 2011 for a large extension to a care home on Wallis Road in Waterlooville.

To the rear of the site is a SINC so at the time of the application, HCC Ecology (Peter McKwean) recommended certain conditions relating to ;

1. a revised bat survey being carried out if the development wasn't started within 12 months of the grant of the permission
2. The location of a wooden bat box to be located on the site and its position agreed
3. External lighting details to be submitted to ensure there is not an adverse impact on the SINC.

The details for these conditions have now been submitted. I have attached them to this email, along with approved plans and request if you could take a look and see if you are of the view that the details are acceptable?

Please do not hesitate to call if you have any queries.

Kind regards

Rachael
