

SUMMERHOUSE PROPOSAL-REF GEN/15/01083 - Mrs K Wooden.

Address -
28 Inhurst Avenue
Waterlooville
PO77QR

1) WRITTEN DESCRIPTION

There is a cheaply built conservatory at the rear of my bungalow with a window overlooking next door.
It is accessed via a glass patio sliding door.
Water butt at garden end.
Size approx 2.8 mtrs wide - onto patio door.
Length *into garden* 2 mtrs.
Very small, either hot or cold.

We would like to remove this conservatory & replace it with a summer house. Size approx -
2.8 mtrs wide - onto patio door (same as old conservatory)
4.5 mtrs long into garden.
Leaving approx 11 mtrs to rear of summer house to boundary.
Height (8ft approx) 2340 mm approx. Under soffit, as the conservatory is now.

The back wall of the summer house would be brick, insulated cavity.
The hot side. (on left exiting patio door).

The front wall of the summer house (on right looking out from patio door)
looking into our garden would be timber or Marley ' cement/plastic cladding.
With double glazed doors & windows to our garden & patio.

The rear wall would be timber or Marley ' cement/plastic cladding ' .
With double glazed window.

Roof - felt. Flat or slope away from bungalow.
With Velux window near patio door end.

Base - concrete

Yours Faithfully
Keith Taylor
