Dear Mrs Haywood,

Planning Application APP/15/01425 Former Wessex Site, 8 New Lane, Havant

Thank you for your recent consultation. There are no archaeological sites currently recorded at this site nor within its immediate vicinity. Whilst the development area is reasonably large I note that a large proportion of the site was occupied by a gas works in the twentieth century. This will have comprised the survival of any archaeological remains in that part of the site. The northern part of the site into which the gas works did not extend has a hard standing. This will have marginally compromised the archaeological potential of the residual of the site. Given the absence of any immediate archaeological evidence, the considerable impact of the gas works and the marginal impact of the hard standing I am happy to confirm that I would not raise any archaeological issues.

Yours sincerely
David Hopkins
