Condition 4 (Removal)

The Code of Sustainable Homes has now been officially scrapped as part of the Housing Standards Review. Therefore it is not reasonable to comply with this Condition. No assessor has been appointed for this development as it has not started as yet and it is unlikely that any assessor will be willing to undertake the work by the time the development is on site. Therefore we apply for removal of this Condition.

Condition 7 (Variation)

This Condition requires the erection of **'a minimum 2.4m high fence to be erected directly adjacent to the 0.3m high block wall as shown on approved plan EX01'** (Topographical Survey) in order to protect the adjacent SPA supporting habitat.

A fence in this location will prevent construction of the dwelling as the balcony at first floor virtually extends to this point. Further, the shingle between the 0.3m high block wall and the hedge shown on the plan EX01 is actually on a membrane and is not a natural environment.

We seek to change this condition to provide a fence on the north side of the hedgerow shown on EX01 thus giving more working space and but still protecting the shingle on the southern side of the hedgerow.

Further we would like to reduce the height of the fence to 1.8m. This is because winds coming directly off the sea will mean that a 2.4 high temporary fence will be difficult secure. A lower fence and also having it located behind the hedgerow will give it some protection should the site be subject to the high winds that are often experienced on this exposed frontage.

Therefore we apply for the words in this condition highlighted above to be replaced by the following words: **'a minimum 1.8m high fence to be erected directly adjacent and to the north of the hedgerow as shown on approved plan EX01'**.
