7 Planning Considerations

- 7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

My inspection related specifically to assessing the proposed works rather than generally inspecting the trees health and condition in any great detail. I visually inspected the trees from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

The tree is a medium sized Cypress that appears to be presenting normal vigour and vitality. The works have been applied for due to maintenance reasons which in this instance is considered reasonable.

The works applied for should not impact negatively on the health of the tree or diminish the public amenity offered.
