Importance: High

Hi please see attached and below for revised details of planting and fencing.

Is this now acceptable?

Best Regards

Daphney Haywood

Subject: DHF Plot 2 Revised landscape plans

Importance: High

Good afternoon Daphney

Further to our discussions and the consultation response from Michelle dated 12th November, please find below revised plans as follows:

- - LP2018-LA-WS-L-90-02 RevN (c) Landscape Proposals

- - This revised landscape plan picks up the majority of the queries from Michelle and the changes can be summarised as follows:

- Car park entrance gates and barriers revised to NW corner - both are needed to prevent unauthorised vehicular access (barriers insufficient on their own), however they have been moved closer together to rationalise appearance, with the gates now positioned behind the barrier.
 - Native hedging added in between rows of parking spaces with access points punched through
 - Narrow green strip between cycle and footpath widened and redefined as further native hedge planting
 - Narrow strips of woodland matrix below 1500mm redefined and labelled as native hedge planting
 - The question around the staff amenity area and removing the fence cannot be taken on board as this is necessary for Secure by Design purposes. The fence around this area will however have native hedge planting of the same height directly behind it.
 - Proposed trees against the paladin fencing - confirmation that the matrix planting will have shrubs placed along the boundary with the site fencing to ensure site security is not compromised as the trees grow.
 - 9 x additional visitor cycle hoops provided next to covered cycle storage

- - LP2018-LA-WS-L-90-03 Rev C Block Plan (Fencing Plan)

- Confirmation of perimeter fence types and heights (3m acoustic fencing on eastern and southern boundaries), 2.7m anthracite grey PPC finish elsewhere, 1.8m around staff amenity area to reflect hedging behind, deer fencing also plotted

- - LA-WS-L-90-03 Rev B Landscape planting strategy

-

- Updated to show additional oak within matrix planting to south and front of the site (19 new oaks in total)
- - LP2018-LA-WS-L-90-05 External finishes
 - - Showing all external finishes, including fencing types
 - DHF-BMD-Z2-XX-DR-A-13004-P5
 - - Site section drawing updated to show all perimeter fences / heights

I trust these revised plans are considered appropriate however should you or Michelle have any further queries, please do not hesitate to contact me.

Kind regards
James
