Hi

We have been consulted regarding this application to discharge conditions relating to application APP/12/01222 and specifically relating to condition 24.

I have reviewed the original application and condition 24 reads:

24) Prior to development commencing on site, a detailed plan for the creation, establishment and long-term maintenance of features for biodiversity enhancements at the site, including specification and location of bat roosting features, shall be submitted to and approved in writing by the Local Planning Authority. The approved details shall be fully adhered to and the site managed in accordance with the approved plan.

Reason: to conserve and enhance biodiversity and having due regard to policy DM8 of the Havant Borough Local Plan Core Strategy which forms part of the Local Development Framework, and the National Planning Policy Framework, March 2012.

This is not a highway matter and therefore not something I am able to comment on.

I have also reviewed the other conditions and cannot see that these are highway related either.

Can you therefore confirm that you do not require a response from us.

Kind Regards

Holly
