Applicant's name

Why you think permission should
or should not be given

we are very concerned about the planning application. the ecological survey is one year old and the premises have been un occupied since that time. in our immediate area we have already had a lot of building work which has made our garden flooding problems a lot worse! we have had a pond for nearly 30 years supporting local wildlife. in the area there are frogs/newts/bats/slowworms/grass-snakes/hedgehogs/foxes/badgers etc.. there fore with thedistruction of more habitat this wildlife will be lost forever
