Dear Mr Goodman

Application for the construction of vehicular access at 1 Trosnant Road, Havant

I acknowledge receipt of your authorisation/payment and confirm that the works have been ordered through our contractor, Arney Infrastructure Services, who will be contacting you within the next six weeks to agree the start date. Whilst works are in progress, which may take several days, it may not be possible to gain vehicular access to your property.

May I remind you of the notes supplied with the application form and in particular relating to works within your own property. If it is necessary to remove a boundary wall or hedge, or construct a new driveway within the property, this must be completed prior to the start of works within the highway. This will ensure levers are coordinated and minimise risk of damage to the new highway works by construction vehicles.

If you have any questions concerning the construction process, please contact our contractor Arney on 01962 794282, quoting Job Number 11022315.

During the works the contractor will provide you with a customer satisfaction form. I would be grateful if you could return this to us once the works are completed.

Yours sincerely

 Peter Barty
 Highway Manager
