Subject: Southleigh landfill site - planning application - app/15/00802

Hello Daphney,

Thank-you for your telephone call; I am sorry I was 'off the ball' when you phoned. I have now got the file out and reminded myself of the issues.

In response to Jonathan Driver's comments on the soil quality proposed in the restoration, I emailed the application agent last Tuesday to request clarification on the qualities of the proposed soils. I have not yet received response from her, and so have chased the request again today, giving a deadline on this Friday, 28 August.

I am happy, if you are, to give until Friday 4 September for your response, or longer should you need. This issue is the outstanding issue on the application and so is significant for any decision.

Please contact me if you have any questions or issues with the above.

Kind Regards,

Philip Millard Msc BEng (hons)
