

Thank you for your email which has been passed to me for a response.

I have looked at the terrier, however I cannot see that Havant Borough Council owns any land in or adjacent to the proposed development site.

I agree that the highway has been adopted, but HBC retains no residual interest in that or adjoining land.

I would point out that there appears to be a TPO on the tree on the verge outside of 29 Forest Road, but other than that I have no comment to make in respect of the proposals.

Regards

Vicki
