Subject: RE: Acolaid Case APP/14/01228

Good afternoon Daphney,

I had a quick call from the applicant and discussed the proposal. It is my understanding that the unit will be exclusively use for clerical type work and not introduction of noise making business. Therefore not requiring a survey. I am in agreement with this and if possible, would it be possible to ensure that any business not involved in "clerical" type work would have to apply prior occupation if any noise making equipment (A/C, exhaust ventilation etc...) needed to be install comes to Planning for approval?

If this is possible I would be very happy to for the application to go through

I hope this helps

Kind regards

Laurent

Good morning Daphney,
I had a look at this application and in particular the "noise report"
I would be grateful if the applicant could provide a noise report that discuss the noise in more details together with the potential impact of the existing and proposed dwellings.
Although a new BS4142 is in place, we are researching what condition could be imposed on a planning app, however should the applicant would like to submit a BS4142 in the 1997 format I should be grateful
I hope this helps

Kind regards

Laurent
