Ref:**APP/15/00735**

Dear Sirs,

Many thanks for your email and subsequent letter from Mrs D Haywood regarding the above site.

I have attached up issued plans (Rev B) showing the proposed changes.

With regards to the balcony screen height on the North West elevation, the revision A plan already showed a screen height of 1825mm taking into account that the screen is sitting on top of parapet well, thus giving an overall height of 1825mm so this has remained as is on the Rev B plans but changed the doors to a window which is to be obscured.

I hope the above clarifies all points and you are now able to proceed with the recommendation of approval.

Kind regards

Danny Manns
