Park Lane Service Station, 97 Park Lane, Bedhampton, PO9 3HQ. –

Application to vary trading hours to 24 hours a day.

Park Lane Service Station is a privately owned and operated independent forecourt business trading under the name of Ironmoor Limited. The business has recently been purchased from BP Oil PLC by the applicant.

This application is to extend the current permitted trading hours of 06.00 hours until 23.00 hours (shop) and 06.00 until 24.00 hours (fuel) to allow both elements of the business to trade 24 hours a day.

It is important to note that from 23.00 hours until 06.00 hours the following morning, all customers will be served via an external night pay window located adjacent to the store counter area and that no customers will be permitted to enter the store to self select goods or pay for fuel.

The site is located on the busy Park Lane thoroughfare and adjacent to the roundabout linking Purbrook Way, Middle Park Way and Park Drive. Purbrook Way links to the Asda entrance road and to the A3M slip road about 1.5km distant.

The applicant is investing heavily within the shop by enlarging the store footprint as well as the external forecourt by increasing the number of car parking spaces and installing a jet wash for customer use between 7am and 7pm – see planning application APP/15/00067 granted 27TH May 2015 . The shop retail area has already been enlarged by utilising up redundant space within the current footprint.

The store is now trading under the fascia of the symbol group **SPAR**, a national provider offering a larger range of grocery & convenience store type products than previously stocked under the previous branding.

Despite the close proximity of the 24 hour Asda main shop building, some 900 metres away, it is felt that there is customer demand for a convenient local amenity concentrating on top up shopping, and also providing a good quality fuel brand (BP will remain the supplier of fuel) 24 hours a day which would be particularly useful for night shift workers, taxi drivers and those commuting by car/van either working late or leaving early, whilst the shop will be the main draw for those on foot where the superstore is too far to travel.

It is also well documented (please see appendix 1) that petrol forecourts that close at night are targeted by ram raiders, burglars and the like. The damage caused by gaining entrance to these well protected premises are often far in excess of any goods or cash stolen and invariably many operators find that their insurance premiums become excessive or in some cases the premises become uninsurable.

Many operators have concluded that manning the sites 24 hours a day will deter criminals whilst at the same time provide a service to their local communities and allow the store to better allocate their staffing resource which represents any businesses' main cost by far. It is also well known that the profitability of a litre of fuel for the independent forecourt operator is so low due to the combination of very high excise duty and VAT, that a petrol forecourt can only survive on the strength of its shop retail offer and by keeping its costs strictly under control.

In addition to the 24 hour site operation of the local Asda superstore garage plus its retail facility at Bedhampton which is also 24 hours a day for 5 days a week (due to Sunday trading restrictions), there are other similar 24 hour forecourt operations trading locally in the Havant Borough council area, where a

convenience store/main store is open to complement a through the night fuel & shop offering. Two of these other premises as underlined below are situated within locations similar to Park Lane Service Station. Please see appendix 2.

- Esso Weston Service Station, 127-129 London Road, Cowplain, PO8 8XJ.
- Hayling Island Service Station, 181-183 Havant Road, Hayling Island, PO11 0LG.
- Tesco Store, Solent Road, Havant, PO9 1TR.
- Asda Store, Hambledon Road, Waterlooville, PO7 7XR.

The store will be recruiting additional full and part time staff to ensure the store is fully manned at all times. It is anticipated that the additional hours/ altered working schedules will create the equivalent of between 2 - 4 full time posts.

A site meeting was arranged and attended by the Police on the May 27th 2015, where relevant site information was outlined and specific proposals designed to address concerns raised by the statutory consultees and local residents from the previous withdrawn planning variation to a condition application APP/15/00400. The discussion points discussed are detailed below and the Police subsequently verbally confirmed their initial concerns regarding the site trading 24 hours, were satisfied.

Crime and Disorder

1. The management and staffing at Park Lane Service Station are a stable and experienced team with most members having worked on site for many years, indeed the manager is a local lady who has 15 years of service at the shop. The staff have a good track record of ensuring noise and anti-social behaviour is minimised with few incidents reported to the Police over the years and have commented that the locality is not a problem area and they often work the evening shifts and have no issue returning to their homes a few minutes walking distance away at night. The staff are predominantly local people who have seen their own children growing up alongside those of their current customers. It is these people who use the store on a daily basis therefore the team is close to their customer base and local youths know and respect this relationship.

All staff report that they notice only a few passers-by when they leave the shop at night near to the parade of shops across the road, where some issues have been reported to the Police in recent times - although we are unsure of the time of day when the complaints originally occurred. On rare occasions in the past a small number of adolescents have gathered on the Park Lane forecourt between about 4pm and 7pm and have always moved on without issue when requested to do so by store staff – at no time were these youngsters misbehaving. The reason for requesting these small groups to leave was for their own safety and the safety of the public due to the volume of vehicles using the site late afternoon and early evening. When the shop is open to the public there has always been two members of staff on duty for the security and safety of the staff and indeed the level of trade warrants that level of staffing.

Nevertheless the applicant recognises that because the trade is going to be significantly lower at night the store will be single manned between 23.00 hours and 06.00 hours, seven days a week and for the safety of lone staff members working, all sales transactions will be made through a night pay window and customers

will not be permitted entrance during these times. The store has a full alarm system which includes a panic button connected to the Police via the alarm company provider.

The applicant has also engaged the services of a 24 hour local mobile uniformed security provider on a retained basis who can provide an immediate response in the unlikely event of a situation developing on site during the night. In the circumstances of a serious incident developing, the Police would always be called rather than the uniformed security personnel. Details of the security operator were provided to the Police during their site visit.

2. An analysis of the existing business transaction count has identified that over a period of some 7 weeks (1st April until 20th May 2015 inclusive) only 0.97% of one percent of total customers use the site between 22.00 & 23.00 hours and that just 2.21% of customers are using the shop and/or buying fuel between 21.00 & 22.00 hours. The applicant therefore expects the number of customers using the site between 23.00 hours and 06.00 hours to be smaller again – equating to a handful of customers per hour on average. This is due to the close proximity of the 24 hour Purbrook Way Asda store with its attendant automated petrol forecourt operation.

3. As alluded to above a document was presented to the Police (Now known as appendix 1, entitled – “garage break-ins at night”) which included the internet source documents and summarised recent criminal acts targeting petrol forecourts that close during the night. There is increasing concern amongst forecourt operators that the blight of ram raids and their like can cause in some cases tens of thousands of pound of damage and significant interruption to business. Forecourt operators are therefore increasingly keeping their sites open at night to deter ram raiders etc from stealing vehicles of all descriptions and then crashing them into businesses to circumvent security precautions such as shutters, alarms and bollards. In some cases the thieves leave empty handed but the site operators business has been severely disrupted, with all prations closed for weeks at a time in some cases.

Site operators find they can reallocate work to night shift staff members such as merchandising product, cleaning, point of sale displays and other statutory duties to help ensure the business runs more efficiently. As staffing in any business represents the lion’s share of direct costs the applicant reasoned that the cost of the reallocation of staff can be slightly offset by serving the few customers at night and as a consequence providing an additional service to the community - as well as of course providing a significant visible deterrent to would be thieves.

4. The store will also be upgrading its CCTV system to install an even higher quality system and specification. The number of cameras will be increased (internally and externally) and located in accordance with advice from either industry advice or from the Police crime prevention officer.

Noise

- There are only 3 complaints reported to Environmental Health regarding the applicant premises since records currently held are on file were recorded. None of the three complaints are recent nor do any relate to the stores fuel and shop operations, they are:

a. 18th June 2004 – noise from car wash – no time specified on the EH records so the store management immediately restricted operations to 08.00 hours until 20.00 hours.

- b. 22nd October 2010 – Strong smell of petrol. After store investigations it was ascertained that the smell related to gas and the local authority were informed by the premises management.
- c. 18th August 2011 – The store was undergoing a refurbishment during this time and some workmen inadvertently commenced work at between 07.00 and 07.30 hours. This was later corrected when it was brought to the attention of the store management.

Light Pollution

- Regarding the representation from the recently withdrawn previous application, a Local resident referred to some light pollution prior to 23.00 hours relating to car headlamps, presumably from customers using the service station which could possibly shine into some homes at night as the customers depart the premises via Park Lane. It could also be said that vehicles travelling at night, around the roundabout near to which Park Lane Service station is located could also adversely affect local residents yet we are not aware that any such complaint has been made. It is also somewhat surprising that the premises have never been approached about such issues in the past either in writing, or in person by local residents, many of whom are regular users of the premises. However the applicant is happy to propose a lighting and usage scheme to be adopted at night to alleviate this concern.
 - It is therefore proposed that the green neon light edging of the canopy facing Park Lane be switched off at night between 23.00 hours and 06.00 hours.
 - It is also proposed that the illuminated price totem pole located on the Park Drive entrance/exit be switched off for the same times with the exception of the fuel prices.
 - The 2 fuel pumps nearest the carwash will also be switched off at night as car headlamps are more likely to shine onto Park Lane resident properties from those pumps due to the angle of the pumps and road entrance/exit. It would reflect the anticipated low level of business expected and also deal with the potential for fuel theft at night (which is generally low for a forecourt) reflecting again on the high level of competence displayed by the team and their knowledge of the area and its customers.
 - The exit/entrance onto Park Drive would be coned off between 23.00 hours and 6.00 hours with all access and egress via Purbrook Way.
 - The under canopy down-lighters would all remain on at night for safety reasons. However these lights will not affect local residents due their position and illumination strength.
 - It is noteworthy that the position of the store frontage is facing away from any resident properties on either Park Lane or Purbrook Way.

Proposed planning conditions to address fears of noise/light pollution issues

- No fuel or grocery deliveries will be permitted on the premises between the hours of 23.00 hours and 06.00 hours with the exception of Newspapers and Magazines.
- A night pay window or Night Hatch will be used between the hours of 23.00 hours and 06.00 hours. No customers will be permitted inside the shop during these times.

- The new night hatch is to be installed as per appendix 3. The new Night pay window will face the pumps and allow a better visibility whilst a customer. The new night pay window design incorporates an intercom system for customers and staff to communicate easily without the need to raise voices as well as a button system activating an internal buzzer to attract a staff members attention should they be engaged on other in-store duties. The night pay window sits in a secure frame with toughened safety glass as per the specification included at appendix 3 – a summary of the night pay window practicalities are detailed below:

- Following our survey we have calculated that our DWP Type NP2 unit would be more suited to your requirements which would allow passing of items of various size to include the 4 litre oil can advised.
- The internal height however is limited to 135mm which is the same as the large Costa cup.
- The existing side window night hatch - whilst we have allowed to remove the existing tray and glazing and install new anti-bandit glazed window, where the existing stainless shroud is removed we have also allowed for a powder coated aluminium cover plate to cover the internal counter in place of the existing tray when it is removed.

- Appropriately worded notices displayed in prominent locations around the premises and the forecourt requesting patrons to respect local residents and to keep noise to a minimum. The positions would include the night pay window and the fuel pumps.

- An appropriately worded night noise and lighting scheme condition(s) as described above the heading “Light Pollution”.

Other 24 hour forecourt/shop premises operating within Havant Local authority area with residential properties in close proximity.

There are at least five service Stations in the Havant Local authority area that are permitted to trade 24 hours a day. Three are forecourts located on the same site as a large supermarket:

- Asda Store, Larchwood Avenue, Bedhampton PO9 3QW.
- Asda Store, Hambledon Road, Waterloo, PO7 7XR.
- Tesco Store, Solent Road, Havant, PO9 1TR.

The remaining two service stations are located within a residential area similar to Park Drive Service Station. They are:

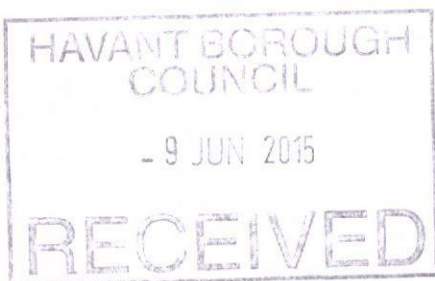

- Hayling Island Service Station (Esso), 181-183 Havant Road, Hayling Island, PO11 0LG.
- Weston Service Station (Esso), 127-129 London Road, Cowplain, Waterloo, PO8 8XJ.

Whilst researching the planning histories, it appears there is no evidence that suggests there are restrictions relating to hours of trade. Indeed verbal enquiries reveal that both sites have operated 24 hours for a number of years. Further corroboratory evidence exists that both sites have premises licences authorising the sale of late night refreshment between 23.00 hours and 05.00 hours. Late Night refreshment (selling hot beverages and heated food) only became a licensing activity following the

introduction of the licensing Act 2003 which came into force in November of 2005. Both stores have premises licence certificates displayed that also detail that the business trades from midnight to midnight (24 hours). Havant Planning would have been notified of the applications as the planning Dept is classed as a responsible authority and as such checked the planning position regarding trading restrictions at the time both these licensing applications were submitted at appendix 2.

I have also attached copies of streetmap plans and google satellite photo's showing the residential nature of the locality surrounding each service station.

Brothers in court for A377 garage ram raid

By This is NorthDevon (/people/This is NorthDevon/profile.html) | Posted: December 10, 2009

Fisheligh Rock Murco garage, Umberleigh

TWO brothers who are charged with a ram raid burglary at an Umberleigh garage have appeared in court.

Karl Thome, 33, of 20 Frankmarsh Park, Barnstaple, and Dale Thome, 34, of 38 Willshere Road, Barnstaple, appeared before North Devon Magistrates on Thursday last week.

Both men have been charged with offences in connection with the raid at Fishleigh Rock garage, Umberleigh, on June 23 when thousands of pounds worth of cigarettes were stolen.

Karl Thome is charged with theft in relation to the ram raid and faces separate charges of possessing a firearm and being in a stolen vehicle.

Dale Thome is also charged with theft from the Umberleigh Garage.

He faces another charge of money laundering, on three occasions, large quantities of cigarettes and tobacco, snap on spanners and a Stihl strimmer.

Dale Thome is also charged with theft from a Londis shop in Bridge Street, Hatherleigh on September 16.

Could you be the next millionaire?

Nothing beats the thrill of seeing your numbers flash up on the screen. The National Lottery could make you a millionaire overnight – but you have to be in it to win it!

Promoted by The National Lottery

Both brothers, appearing via video link, did not enter any pleas.

The bench refused an application for bail and they were remanded in custody at Exeter Prison.

They will next appear at North Devon Magistrates on Thursday December 31.

Thousands of pounds worth of damage was caused to the garage in Umberleigh after a vehicle was driven into the building.

Up to £10,000 worth of tobacco was then stolen.

A total of £400 cash was stolen from the shop in the Hatherleigh incident.

The raid caused £3,000 worth of damage.

A PETROL station on the St Paul's and St Werburgh's border has reopened for business after it was ram-raided.

Severn Ways Service Station, supplied with fuel by BWOC, was targeted by thieves between 3.30am and 6am yesterday.

Avon and Somerset police cordoned off the forecourt on Sussex Place as they investigated the crime.

Force spokesman Wayne Baker said: "I can confirm we are investigating a burglary at a petrol station on Sussex Place.

"It is believed a car was used to reverse into the shutters of the building of the forecourt some time between 3.30am and 6am.

"It appears a till was stolen from the premises during the incident.

"We would appeal to anyone in the area who saw or heard anything suspicious, or who has any information that might help us with our enquiries, to contact us on 101."

Anyone with information on this crime should call police on 101.

Driver in bungled attempt to raid cash point in Hampshire is jailed

[Send us your news, pictures and videos](#)

Damien Limb, 27

First published Wednesday 25 September 2013 in [News](#)

Last updated 20:37 Wednesday 25 September 2013

A thief who took part in a raid on a [petrol](#) station that led to a Hampshire cash machine being blown to pieces, causing £165,000 of damage, has been jailed for three-and-a-half years.

Damien Limb, 27, was the driver for the bungled heist at a Texaco station that completely destroyed the ATM, scattered £20,000 of cash across the forecourt as well as damaging petrol pumps and the station's canopy.

The heavy door of the ATM was blown 25 metres and sliced through an inch thick stanchion "like a knife through butter".

The cash machine contained £20,000 but the gang only managed to scoop up £3,400, with more than £16,000 recovered.

Watch the dramatic moment when the cash machine was blown to pieces

Police said afterwards that the thieves were lucky they did not kill themselves or others by using oxygen and propane gas pumped into the machine to blow it because they had no control over the blast Residents nearby heard a "huge explosion" at 3.15am on March 31 this year as debris was hurled 38 metres away.

The masked gang had prised open the machine using a crowbar at the filling station in Weyhill, Hampshire, and pumped the mixture into it through hoses then sealed the hole with paper, [Winchester](#) Crown Court heard.

After 40 seconds, the mixture ignited, probably due to an electrical circuit inside or heat from the machine, and it blew up.

The whole operation and the explosion was captured on CCTV, which showed the ATM being completely destroyed before three men dressed in black started scrambling about trying to pick up £20 notes.

A sequence of images from the explosion

The damage to the garage was £150,000 and the ATM cost £15,000, the court heard.

Tattooed Limb, from Lichfield Road, Bristol, pleaded guilty to conspiracy to steal and conspiracy to cause criminal damage with unknown persons, as the rest of the gang has not been caught.

Limb was traced because police followed a trail of cash and wheel tracks from the cylinders' trolley from the scene, under a bridge where a receipt for water and a small amount of petrol from a garage in Bristol was found.

A GARAGE in West Coker was the victim of a ram raid as thieves smashed through the walls and made away with a cash machine.

West Coker Garage was targeted by thieves at 4.30am on Thursday morning.

The windows of the High Street garage were damaged as offenders used a car to smash through the walls and gain access to the shop.

Police confirmed a cash machine was stolen in the raid – although a spokesman from the garage claimed there "was not a vast amount" of cash inside.

Avon and Somerset Constabulary confirmed the incident and a full investigation into the incident has been launched.

A police statement said: "A dark vehicle used in the burglary was found nearby shortly afterwards in the Odcombe area.

Could you be the next millionaire?

Nothing beats the thrill of seeing your numbers flash up on the screen. The National Lottery could make you a millionaire overnight – but you have to be in it to win it!

Promoted by The Nation

"We are keen to hear from anyone who was in either the West Coker or Odcombe areas around the time of the incident who may be able to help with our enquiries."

The raid comes two weeks after the One Stop shop on Runnymede Road, Yeovil, was similarly attacked.

Police are still investigating the raid on Tuesday, April 8 when three masked men broke into the One Stop and stole an empty cash machine.

Officers want to hear from anyone who may have seen a Mitsubishi Shogun just after 3am.

It is understood that the vehicle then returned at 4.30am when the burglary took place.

The men forced open the front door and wheeled the free-standing cash machine out on a trolley, police claimed.

Anyone with information on either of the incidents should contact 101.

SHOP DRESSES

whose family runs the service station in Dorchester Road, Maiden Newton.

Dorset Police are linking the ram raid to similar incidents which have happened across Dorset and Somerset.

The gang responsible is stealing vehicles before smashing into premises to get at ATM machines.

Mr Andrews said the garage was back open on Thursday afternoon although there were a few 'teething problems' but it was fully open again on Friday.

The main entrance is boarded up and customers are directed to use the side entrance.

Mr Andrews said: "We will not let them defeat us. We were closed for one-and-a-half days before we opened up again.

"It is going to be some time before everything is back to normal but we are trading again.

"The damage is more than we thought. When we finally got in there after forensics had been in we saw the extent of the damage.

"The electrics were affected and a surge has affected other equipment."

Mr Andrews said customers had been supportive.

Ram raid in Framlingham

Levi Hiden stole the Mercedes used to [smash a hole in the wall of Potters in Station Road](http://www.esqf.co.uk/news/framlingham-smash-and-grab-raid-on-filling-station-1-2845404) <http://www.esqf.co.uk/news/framlingham-smash-and-grab-raid-on-filling-station-1-2845404>, from a house in Burstall shortly before the raid in October last year. Ipswich Crown Court heard.

Extensive damage running into thousands of pounds was caused to the side wall of the station shop but all that was taken was cigarettes and tobacco worth £150, said Lori Tucker, prosecuting. Hiden, 29, of Severn Road, Ipswich admitted three offences of burglary at Mulberry Hall, Burstall, Cherwell House, Burstall Lane, Sproughton and Potters. He also admitted stealing a Mercedes and an Audi during the burglary at Mulberry Hall, theft of a bike and possessing cannabis. All the offences took place between October 2-4 last year.

Jailing him for five years Judge Rupert Overbury said the Mercedes stolen from Mulberry Hall had been used as a "tool" to ram the wall of the garage. "You caused thousands of pounds of damage and you gained not very much at all," said the judge.

Miss Tucker told the court that Mulberry Hall was broken into while the owners were asleep and in addition to the two cars a computer and a large amount dental equipment was stolen.

The Mercedes was used in the ram raid at Potters and the Audi, which was later burnt out on a flyover near the A12, was seen leaving the premises after the incident.

Miss Tucker said gardening equipment valued at more than £2,000 was stolen from a shed at Cherwell House and a scramble bike was stolen from an isolated farmhouse at Creting St Peter.

After Hiden's arrest the stolen dental equipment, some of the stolen gardening equipment and the trail bike were all recovered.

Steven Dyble, for Hiden, said his client's father, who was in poor health, ran a Christmas tree plantation and Hiden wanted to take over the business on his release from prison. "He wants to turn over a new leaf," said Mr Dyble.

After today's hearing Detective Inspector Nick Power said: "These were serious crimes committed over a short period of time where a business was disrupted and a home owner had the trauma of their home being broken into and valuable items being stolen from within."

Thieves escaped with thousands of pounds after blowing the front off a cash machine by pumping it full of gas.

Notes and wreckage were left littering the road after the blast at the HSBC branch in Brislington, Bristol at 2.30am today.

The gas had reportedly been pumped into the machine to cause an explosion which blew off the front.

It is the fifth incident of its kind in the city in 18 months.

Six months ago, another machine outside a Costcutter shop in a Texaco petrol station in the St George area of Bristol was blown apart.

That incident came weeks after another machine was targeted in the city, leaving £10 notes scattered across the floor.

It is understood two other machines in the city were also targeted in 2013 with cash stolen.

Eashing Service Station ram-raiders smash into garage with a JCB

May 15, 2015

By [Admin](#)

Brazen ram-raiders in a JCB stole cash after smashing into a [Godalming](#) petrol station on Friday morning.

Hooded burglars drove the vehicle into the front of Eashing Service Station at around 4.36am.

[Surrey Police](#) said it received reports that a bright yellow JCB had been driven into the front of the Spar shop, just off the [A3](#) southbound.

Two men, wearing dark trousers and dark hooded tops, then entered the premises, removed the till and escaped in a silver pick-up vehicle.

A member of staff was working in the shop at the time but was not injured, according to police.

DC Kerry Whindle said: "We would like to hear from anyone who has any information about this incident or saw a bright yellow JCB or a silver pick-up vehicle in the area at around 4.30am this morning.

"This was a shocking ordeal for the member of staff who was working inside the building and we are determined to find whoever is responsible and bring them to justice."

The incident comes three days after [ram-raiders used a stolen Subaru](#) to smash through the front doors of a Co-Operative supermarket in Cranleigh on May 11. They stole cigarettes and lottery scratch cards.

Anyone with information is asked to call Surrey Police on 101 quoting reference 45150040138 or by using the [online reporting system](#).

Crimestoppers can be anonymously contacted on 0800555111.

**INCORPORATING ELECTRONIC AUDIBILITY SYSTEM
COMPLETE WITH INDUCTION LOOP FACILITY**

DIMENSIONS:

STANDARD SIZE 1200 X 700 X 205mm W X D X H

STRUCTURAL OPENING REQUIRED 1210 X 210mm

DESIGNED TO FIT BELOW EXISTING OR
PROPOSED GLAZING

SUITABLE FOR EXTERNAL USE BUT A CANOPY IS
STRONGLY RECOMMENDED

SPECIFICATION:

STANDALONE TRANSACTION DRAWER WITH
BUILT IN ELECTRONIC AUDIBILITY SYSTEM
COMPLETE WITH INDUCTION LOOP FACILITY

STANDARD FINISH:

BRUSHED STAINLESS STEEL

DRAWER:

COMBINATION 75/135mm TRANSFER TRAYS,
PASSING SIZE 100 X 250 X 75mm (75mm TRAY)
/ 415 X 250 X 135mm (135mm TRAY)

FOR USE WHERE THE TRANSFER OF GOODS AND CASH
CAN BE UTILISED TOGETHER, THE 75mm TRAY ALSO
ALLOWS THE USE OF CREDIT/DEBIT CARD TERMINAL.

SUITABLE FOR PETROL STATION AND PHARMACY
OUT OF HOURS TRANSACTIONS AND OTHER
RETAIL OR TRADE OUT OF HOURS SALES
WHERE COMMUNICATION IS REQUIRED. IF
LARGER ITEMS ARE REQUIRED TO PASS CAN
ALSO BE USED IN CONJUNCTION WITH BTU UNITS.

OPERATION:

TRANSACTION DRAWER MANUALLY OPERATED,
DRAWER ABLE TO BE LOCKED IN CLOSED POSITION
BY PUSH TO LOCK, TURN KEY TO OPEN LOCK.
AUDIBILITY SYSTEM, FULLY DUPLEX SYSTEM WITH
INTERNAL DESK CONSOLE CONTROL UNIT.

INSTALLATION:

CAN BE INSTALLED IN VIRTUALLY ANY WALL
THICKNESS TO SUIT OPENING SIZE OF 1210 X 210mm.

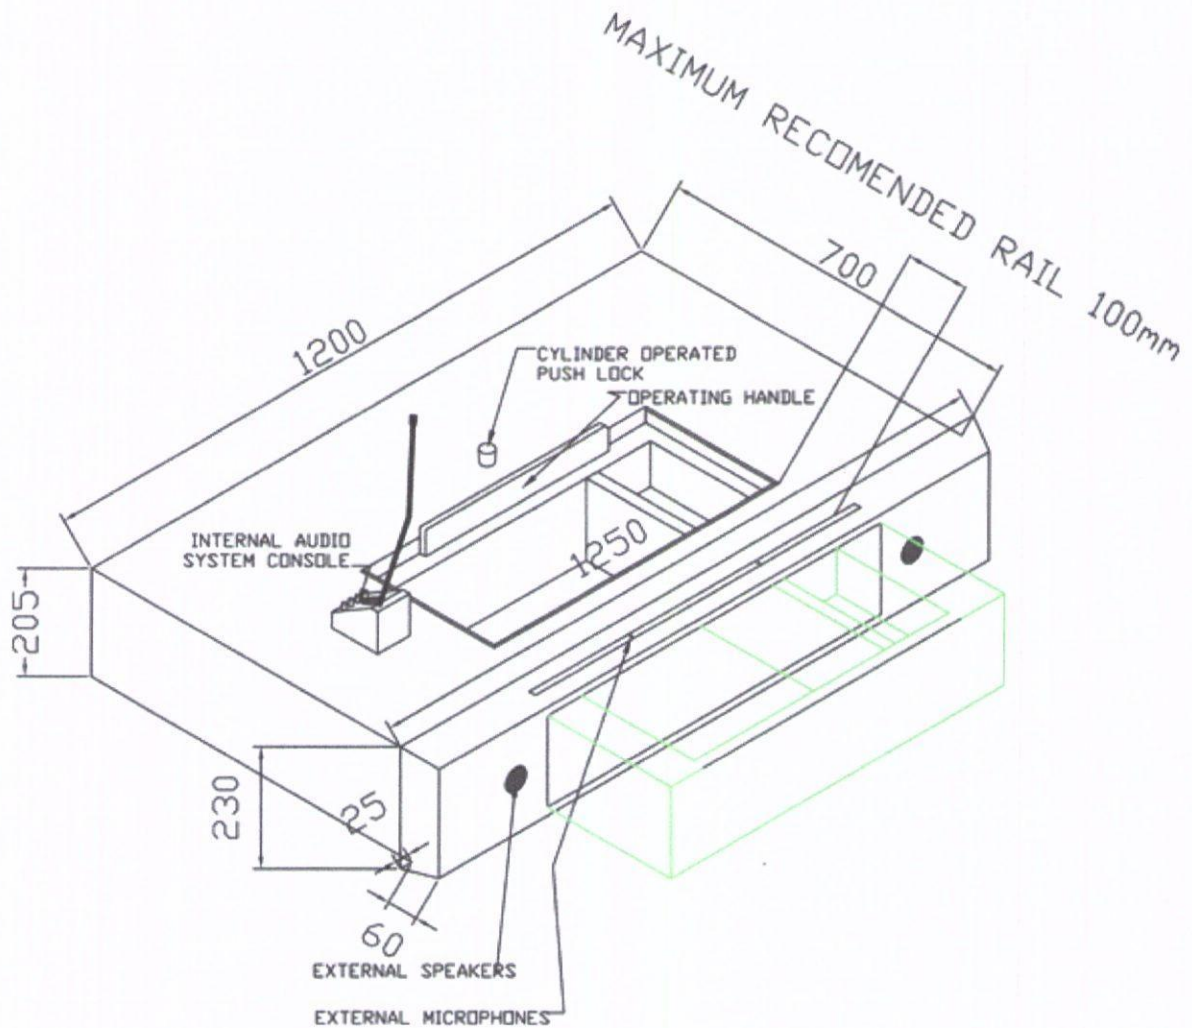

UNIT IS SUPPLIED FULLY ASSEMBLED AND WITH
AUDIBILITY SYSTEM FACTORY BALANCED TO
SIMPLY PLUG INTO AN EXISTING 13AMP SOCKET.
EXTERNALLY THE UNIT HAS A 25mm FLANGE TO THE
TOP AND SIDES TO COVER ANY IRREGULARITIES IN
STRUCTURAL OPENING AND TO ALLOW THE UNIT
TO BE SEALED TO STRUCTURAL OPENING USING
SUITABLE MASTIC SEAL. THE UNIT IS SUPPLIED
WITH A PRE-DRILLED INTERNAL FIXING FLANGE
THAT IS SCREW FIXED TO THE BASE UNIT AND WALL
ALLOWING 50mm FOR ANY ADJOINING COUNTER
TOPS THAT MAY BE REQUIRED OR ARE EXISTING.
THE MAXIMUM RECOMMENDED GLAZING RAIL
DEPTH IS 100mm ALTHOUGH THICKER RAILS CAN
BE ACCOMMODATED BUT OPERATION OF THE
DRAWER UNIT IS THEN RESTRICTED AND PASSING
SIZE REDUCED.
