Daphney

Thank you for forwarding the request from Environmental Health with regard to the noise report.

I have spoken to Laurent Lemagnen this afternoon to confirm that there will not be any uses requiring heavy machinery, refrigeration plant or other potential noise generating machinery which may cause nuisance installed within the proposed offices. The uses would be confined to clerical or professional companies and the like (e.g. accountants, solicitors for instance).

On the basis that a suitable condition would be included, which the applicant is happy to accept, Mr. Lemagnen confirmed that he would not require any further noise report.

Kind regards

Jeff

Good morning Daphney,
I had a look at this application and in particular the "noise report"
I would be grateful if the applicant could provide a noise report that discuss the noise in more details together with the potential impact of the existing and proposed dwellings.
Although a new BS4142 is in place, we are researching what condition could be imposed on a planning app, however should the applicant like to submit a BS4142 in the 1997 format I should be grateful
I hope this helps

Kind regards

Laurent
