Re: Planning Application APP/14/00547 Land west of Horndean Road and south of Southleigh Road

Dear Mrs Lealan,

I refer to your letter dated 09/03/2015 and the most recent modifications to the plan.

My objections remain with regard to inadequate consideration of major aspects of infrastructure and services. Many of these are well recorded in the documents and representations you display. With the existing and projected inadequacies with regard to flooding, drainage and sewage, education, medical and health services and roads and traffic it would, in my opinion, be **irresponsible and wasteful** for further consideration to be given to such development.

Existing issues should be resolved and commitments given to any future infrastructure requirements before any further applications are considered. Priority should be given to the requirements of existing rate payers and residents of Emsworth

Yours sincerely,

(Trevor Johnson).
