Good scheme to bring life into the area and
increase the CAB space.

We think this is good use of dead tired
Space.

It will be sad to see N^o 9 The Swiss Cottage go
but it is neither "use nor ornament"!

If the building plans improve the look of St George's
walk then hopefully it will be a welcome
addition to Waterlooille

Excellent design brief - sensitive to area.
Bringing people into Waterloo Centre to
rejuvenate the town centre.

Disappointed from the church point of view,
that the high Roof line will block out light
from the church - which was originally designed
with this purpose.
