Why you think permission should
or should not be given

I do not think permission should be given for the following reasons :-

1. The garden area has already been significantly reduced by the new extension to the main building.
2. Extending this commercial business into the garden area by building office accommodation is not acceptable. All office and business management should be contained within the new building. Sheds may be acceptable for storage of gardening tools etc. but office accommodation, that may be used all hours of the day and night should not be considered.
4. Additional noise, lighting, phone calls and regular conversations and movement would be detrimental to use of quiet neighbouring gardens.
5. I believe there would be significant loss of peace and quiet to all neighbouring gardens. Regular use of a business office which may eventually extend to a 24 hrs operation, will significantly reduce the enjoyment of our gardens.
6. I originally objected to the extensive development of the first planning application (now approved), and I am now even more convinced that this creeping development will eventually fill the whole garden, much to the annoyance of all neighbouring properties.

Please consider refusing permission for this additional development which will then keep rear gardens for gardening purposes and the enjoyment of peaceful and relaxing activities by all of the neighbouring properties.
