

Hi Richard

I note one letter of objection has been received from the neighbouring occupier principally on the grounds of traffic and parking.

I would point out that when this scheme was previously permitted the adjoining use was a school, rather than the care home which now exists. In reality the level of traffic in the road is therefore likely to have reduced.

The proposed scheme is intended to provide 2 off-street parking spaces per dwelling.

Please do not hesitate to contact me if you require any further information.
