Subject: 2 Emsworth Road

Dear Mr Nash,

Further to my previous email and in reply to our recent telephone conversation, I would just like to reiterate the main concerns of the Residents with regard to the Wall, sorry if I am going over old ground, but we find it important to us as Residents.

If as we hope you are minded to pass this application, we are very concerned that any thing but a short time limit, in the region of six months rather than the usual three years be applied and maybe enforced as this situation has been blighting our Conservation Area for more than 5 years.

We do not want to find ourselves in the situation, say in 3 years and nothing has happened to then find that the application is up for renewal.

We also realise that once a decision is made with regard to the time limit, we have no course of appeal and have to sit it out, only to see another application made.

To sum it up, we are all hoping to see the Wall rebuilt as soon as possible with no further delays.

Please take these comments into consideration when making your decision.

Yours Sincerely

Richard Germain

Chair of Lymbourn Road Residents Assoc.
