Subject: Development site at Portsdown Hill, UE5

Steve, good afternoon

The residents of West Bedhampton have commissioned an independent survey of ALL pedestrian usage of the dual carriage way (Havant Road) and the Rusty Cutter roundabout.

The survey is being carried out by ELAS, a reputable Health & Safety company, and their findings will be available early to mid week, next week.

To allow us to digest their report and adjust our deputations accordingly, I would like to FORMALLY request a deferment of the above hearing to 14th August.

I will ensure, with the agreement of the residents, that a copy of the ELAS report is with you when we receive it

Regards

David Smith
Councillor for Bedhampton
