RECEIVED

To Whom it May Concern

Attached is an application for Change of Use of an unused pathway for over 15 years.

I live at 61 Hollow Lane Hayling Island P1199ET running alongside our property is an unused pathway leading to Elm Grove it is impossible to walk through as it is so overgrown. I have lived at property since August 2000 and it has never been used since we arrived and I have been informed it has not been used prior to this for some years. ~~So~~ Since 2000 we have tried to keep it manageable spend a lot of money on skips clearing rubbish trying to keep rat infestation at bay. Council has been called out to help get rid of rats over the years but refused to clear area nominated as (no mans land) unable to trace owner. (Mr Wilfred Thomas Perkin) registered in 1981 elderly gentleman believed to have moved to Australia would be well into his 100's by now!! We have begun to clear front of pathway incorporating into drive way shrub as all our fence blew down last winter giving us the opportunity to

P.T.O.

removed remaining damaged panels (our boundary fence)
allowing us to clear area properly.

Rather than spend even more money making
the environment more acceptable to the general
public and immediate neighbours before we continue
to clear rear of property we felt we should
apply to officially take over land.

I hope this application meets with your
approval. I have spoken and corresponded
with lovely ladies ^{Hurriet} ~~Barry~~ Pitney and Jackie Clarke.
who have been most helpful.

Attached also is a copy of newspaper publication
in Heyling Islander.

I look forward to hearing from you soon

Kind Regards

Mrs J. McNally
