1.0 INTRODUCTION

1.1 Bellamy Roberts LLP has been instructed by Linden Homes Southern to provide highway and transportation advice in support of proposals to build 55 residential units on land at Bartons Road, Havant. This Travel Plan Framework should be read in conjunction with the Transport Statement.

1.2 The application site comprises partly developed land, with buildings to the south and east of the site. These buildings are currently used for commercial and residential purposes.

2.0 SITE LOCATION

2.1 The application site is situated in Havant, 2.2 km northeast of Havant Town Centre, 1.5 km east of Leigh Park, 2.9 km northwest of Emsworth, and 3 km northeast of Bedhampton. It is located on the north side of Bartons Road. The main access to the site will be formed from Bartons Road in the approximate location of the existing access. A site location plan is at **Appendix 1**.

2.2 The surrounding area is semi-rural, with the town of Havant found mainly to the west of the site. The town includes a number of local services and amenities, including the Meridian Shopping Centre, Havant Library, Havant Railway Station, Havant College and a selection of shops and restaurants along West Street.

2.3 It is clear that the site is close to, and well served, by local facilities and amenities offered by Havant and, as such, it is considered that the sustainability credentials of the application site comprise a strong material consideration that supports the proposed development in accordance with the National Planning Framework (NPPF).

3.0 SUSTAINABLE TRANSPORT CONNECTIONS

Pedestrians

3.1 In the absence of Planning Policy Guidance Note 13 'Transport', which set out the widely recognised walking distance of 2 km, the 'Guidelines for Providing Journeys on Foot' by the Institution of Highways and Transportation, has been referred to. Within Table 3.2, suggested walking distances have been set-out. Whilst a distance of 2 km still features as a preferred maximum walking distance for commuting, for other locations, a distance of 1.2 km is stated.

3.2 A pedestrian isochrone plan had been attached at **Appendix 2**, to identify these recognised walking distances in relation to the application site, along with the local facilities that can be found within this distance.

3.3 As a result of the proposals, it is intended that a new footway link is provided along the north side of Bartons Road, linking with the existing footway at Wakefords Way to the west. Pedestrian enhancements will be made to the existing islands adjacent to the site, such as dropped kerbs and tactile paving, improving the pedestrian crossing on Bartons Road.

Rail

3.4 The site is served by Havant Railway Station, which can be found 1.9 km southwest of the site, on North Street. Rail services are provided to destinations such as London Waterloo, London Victoria, Portsmouth Harbour, Southampton, Brighton and Littlehampton with stations between. These services operate regularly throughout the day.

3.5 For the AM peak (08:00 - 09:00), there are five services to London Waterloo and Victoria, four services to Portsmouth Harbour, two services to Southampton & Brighton and one service to Littlehampton. Facilities at the station include cycle parking, a car park, ticket office, sheltered seating, waiting rooms, WC's, coffee shop, cash machine and lifts for disabled users.

3.6 The site is also served by Warblington Railway Station, which can be found 1.6 km south of the site, along Southleigh Road. Rail services are provided to destinations such as London Victoria, Portsmouth and Southsea, Southampton and Littlehampton with stations between. However, these services run much less frequently, with only an hourly service each way. Facilities at the station include sheltered seating. A copy of the arrivals and departures can be found at **Appendix 3**.

Buses

3.7 There are two bus routes that run close to the site. These routes are the Nos. 20 and 21, which run between Havant and Portsmouth. The closest bus stop is 241m west of the site along Wakeford Way, this bus stop comprises a bus shelter with seating. The other bus stop is on the opposite side of Wakeford Way, comprising a standing stop.

3.8 Nos. 20 and 21 run every 30 minutes, a summary of these services is provided in Table 1 below. A copy of the route map and timetable can be found in ***Appendix 4***.

Table 1

Bus Services

Route	From	To		Mon - Fri		Sat		Sun	
				First	Last	First	Last	First	Last
20	Havant	Portsmouth	30 mins	06:33	20:07	07:02	20:07	-	-
20	Portsmouth	Havant	30 mins	07:01	21:06	07:16	21:06	-	-
21	Havant	Portsmouth	30 mins	05;52	22:47	06:47	22:47	07:52	20:47
21	Portsmouth	Havant	30 mins	06:23	23:27	07:31	23:26	08:37	22:26

Cycling

3.9 Cycling can be a realistic alternative to the car, particularly for journeys under 5 km. There are no cycleways in the vicinity of the site; however there is a cycleway that runs along Petersfield Road, 0.9 km west of the site. The cycleway runs to the north out of Havant and to the south through Havant Town Centre, and then further on to Portsmouth. There is also another cycleway,

0.7 km south of the site, this runs along Southleigh Road linking Emsworth in the east and Warblington in the west.

3.10 As a result, due to the site's close proximity to cycleways, cycling can be considered a desirable mode of transport.

4.0 TRAFFIC GENERATION

4.1 Alongside the planning application, a Transport Statement was provided which identifies the traffic generation of the scheme.

Table 2

Proposed Trip Rate and Traffic Generation

Mixed Residential (55 Units)	Arrivals		Departures		Two-Way
	Trip Rate	Total	Trip Rate	Total	
AM Peak (08:00 – 09:00)	0.119	6.5	0.329	18	25
PM Peak (17:00 – 18:00)	0.281	15.4	0.194	10.7	26
Daily	2.073	114	2.221	122	236

4.2 As can be seen from Table 2 above, the proposals are likely to generate 25 two-way movements in the AM network peak and 26 in the PM network peak. By way of ensuring this is a robust representation, a cross-test has been completed for the daily trip rate. This indicates a percentage variation of 4.8%, which is considered suitably robust.

4.3 The Travel Plan will relate to the residents, visitors and delivery travel demands. Linden Homes is dedicated in their commitment to ensure that unnecessary car-borne trips are minimal, and that viable alternatives are proposed to single car-occupancy use, which are commensurate with the scale of development.

5.0 CONSULTATATION AND PARTNERSHIPS

5.1 A number of further key partnerships would benefit the Travel Plan, namely:

- Hantscareshare.com: A car-share scheme with 324,006 members registered with the national lift-share network. Each on average saving £786.66 per year.
- Residents Association: These meetings can be used to discuss transport related issues and dedicated information.
- Commuter Forums

5.2 In order to ascertain the benefits a Travel Plan is giving rise to, it is important to identify an appropriate baseline from which any changes can be accurately measured. These baseline figures are also required before accurate and achievable targets may be set.

5.3 To ensure an accurate survey response is obtained, Hampshire County Council's document 'A Guide to Development Related Travel Plans' requires a 35% response rate, which for a development of this size would require responses from 20 homes.

5.4 A sample Travel Questionnaire has been attached at **Appendix 5** for information. These will need to be distributed to households within three months of occupation.

5.5 As it is not possible to complete a survey at this time, Census 2011 data has been used to identify travel trends within the area. This should enable typical travel patterns to be identified, which could be compared to patterns from the development site post occupation.

5.6 Due to the location of the site, it is expected that any subsequent travel survey will identify a significant amount of trips undertaken by bike or on foot. For example, those trips to the school or town centre, due to their proximity to the new development, can all be undertaken on foot or cycle.

6.0 VISIONS, OBJECTIVES AND TARGETS

6.1 The overall vision for the Travel Plan is to ensure that the amount of unnecessary vehicular trips by car are minimised through initiatives which reduce the need to travel, promote alternative means of transport and linked trips.

6.2 A summary of the overriding visions and objectives has been provided in Table 3 below.

Table 3

Summary of Overriding Visions and Objectives

Vision	Objective
Reduce unnecessary trips by car	Reduce need to travel
	Promote alternative modes
	Promote linked trips

6.3 Whilst promoting sustainable modes of transport is recognised as an important means by which to reduce unnecessary trips by car, the location and size of the development is such that very limited headway could be made if the sole objective was to promote alternative modes.

6.4 As such, it is recognised that for the site to reduce the amount of unnecessary car trips by removing the need to travel, in addition to encouraging linked trips when travel by car is unavoidable, the overall vision of reducing vehicular trips should be met by the current sustainable transport choices available.

Targets

6.5 Whilst accurate survey data cannot be obtained until the development has been fully occupied, it is recognised that sustainable SMART targets can be identified, which can be revised once the necessary information has been gathered.

6.6 "SMART" targets need to be specific, measurable, achievable, realistic and timebound. The areas to be targeted within this Travel Plan have been identified in Table 4.

Table 4

SMART Targets

Objective	Targets	Dates		
		Year 1	Year 2	Year 3
Reduce the need to travel	% Residents using home deliveries on regular basis (monthly)	2.5% ↑	5% ↑	7.5% ↑
Promote Alternative Modes	% Residents travelling by car as a single occupant	2.5% ↓	5% ↓	7.5% ↓
Promote Linked Trips	% Residents undertaking linked trips in favour of single destination trips	2.5% ↑	5% ↑	7.5% ↑

6.7 The target figures provided above are indicative at this stage, as these will entirely depend upon the results of the initial Travel Survey to be undertaken within three months of full occupation.

6.8 The above targets have been chosen as, whilst they are largely dictated by the characteristics of the site, they also comply with the wider objectives of both the Local Transport Plan and the Local Plan Saved Policies, in that they seek to reduce reliance on the private car and promote sustainable means of transport.

7.0 ACTION PLAN AND MEASURES

7.1 In order to achieve the objectives outlined in Table 4, a comprehensive list of measures has been devised. These measures are as follows.

7.2 **Reduce the need to travel**

- Broadband link to encourage homeworking and internet shopping, thereby reducing unnecessary trips.
- Set up website which can provide access to local information and services through the web.

7.3 Promote alternative modes of transport

- Provide residents Travel Pack, which will provide details of sustainable transport links from the site. This will provide details of the travel website where links to local services may be found. This will include details for Hantsliftshare.com, a car-share scheme with over 500,000 members.

7.4 Promote linked trips

- Marketing, provided in the form of a Travel Pack, which will clearly promote the use of linked trips as a means of reducing unnecessary vehicular trips generated from the site.

7.5 To summarise the measures proposed and identify suitable timescales for implementation, Table 5 below has been provided.

Table 5

Measures Proposed

Measure	By When	By Whom
Broadband Connection	Occupation	Developer
Website	Occupation	Developer
Cycle Parking	Occupation	Developer
Travel Pack	Occupation	Developer

7.6 It is felt that the measures outlined above consider the needs of residents, visitors and deliveries and seeks to reduce unnecessary car trips to and from the site in a sustainable manner.

8.0 EVALUATION AND MONITORING

8.1 To ensure the continued success of the Travel Plan, it will be necessary to

conduct a survey of residents' travel habits annually to assess the effect of initiatives covered within this document.

8.2 To ascertain a base level from which targets would be set, an initial survey would need to be undertaken within three months of full occupation. Using this data, SMART targets will need to be agreed with the Local Authority prior to approval of the Plan. Subsequent surveys will then be conducted on an annual basis thereafter.

8.3 If targets have not been met by the deadlines proposed, the results of the survey will be submitted to the Local Authority with a short report, outlining any actions. The managing company will liaise with the Council during this process.

9.0 ROLES AND RESPONSIBILITIES

9.1 To ensure the Travel Plan is promoted over a sustained period of time, the Travel Plan will be secured through a Section 106 Agreement or planning condition which will ensure the Travel Plan is closely monitored by the Local Authority for a five-year period.

9.2 During this time a management agent will be instructed to undertake the role of a Travel Plan Co-ordinator on a part-time basis, which will include the following responsibilities:

- To ensure all relevant information with the website is kept up-to-date.
- To organise annual travel surveys.
- To produce an annual monitoring report for the County Council.
- To liaise with the local Residents Association.
- To issue Travel Packs to new residents.

10.0 PROMOTION AND MARKETING

10.1 The on-going promotion and marketing of the Travel Plan will be the responsibility of the managing agent. The responsibilities are set out in the previous section.

11.0 FUNDING

11.1 It is recognised that adequate funding of the Travel Plan will ensure its continued success for the future. In this regard the funding sources have been identified below in Table 6.

Table 6
Funding Sources

Measure	Cost	Source
Broadband Connection	TBC	Developer to provide
Website	TBC	Developer to fund
Cycle Parking	TBC	Developer to provide
Travel Pack	TBC	Developer to fund
On-going Management	TBC	Developer to fund

11.2 Linden Homes is committed to ensuring that a realistic and achievable Travel Plan can be implemented for the development site. As such, on behalf of the applicant, Bellamy Roberts LLP would welcome any comments from the Local Authority to ensure its future success.

For times of the next departures from a particular stop you can use traveline-txt - by sending the SMS code to 84268. [illegible]

You can also get the same information by using the SMS code at [illegible] NextBuses

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

SMS Code	Stop Name	Street	ATCO Code
[illegible]	[illegible]	[illegible]	[illegible]

[illegible]

For times of the next departures from a particular stop you can use traveline-txt - by sending the SMS code to 84268. Add the service number after the code if you just want a specific service - eg. [illegible] 60. The return message from traveline-txt will show the next three departures and currently costs 25p plus any message sending charge - however this is free for all stops in Lincolnshire & in the SW region. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to NextBuses.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

APPENDIX 5

RESIDENTS TRAVEL & PARKING QUESTIONNAIRE

Dear Resident,

You are probably aware that, as part of the planning consent for this development, a Travel Plan has been introduced. We have to carry out a Travel and Parking survey in order to evaluate the Travel Plan and its effectiveness in reducing car travel, whilst ensuring travel needs are satisfied. We would be most grateful if you could spend a few minutes filling in the questionnaire below. All individual responses will be kept confidential.

Yours sincerely,

The Travel Plan Co-Ordinator

1. **Household Address**

2. **How many people live permanently in your house?**	**Adults**	
Children under the age of 16	**Children**	

3. **Does anyone in your household have a disability that could affect your travel arrangements**	**Yes**	
	No	

4. **How many cars are owned at the above address?**	

5. **What is the total number of return journeys the car / s above make each day?**	
Once per day	
2-3 times per day	
4-5 times per day	
More than 5 times per day	

6. **Please indicate in the box how many times per week member of your family use each of the following modes of transport for a return journey:**		
	Adults	**Children**
(a) Private car as driver		
(b) Private car as passenger
