

Engineer's Vegetation Mitigation Statement of Truth

Engineer's Name:

Risk Address: 10, Linda Grove, Waterlooville, Hampshire, PO8 8UX

Insured's Name: Mrs Emmott

Cause of Damage: Clay shrinkage Private neighbours trees / vegetation

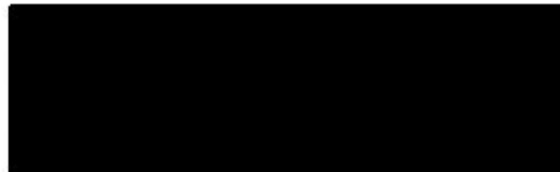

Damage:

I believe that the damage reported to the above property has been substantially and effectively caused by vegetation identified within the Arboricultural report. Additionally my expert opinion is that drains (defective or otherwise) have not contributed to this damage.

I believe that the facts stated above are true.

Name:

Signed:

For and on behalf of InFront Innovation

Date: 09 December 2013

**nb. Should the Engineer not be able to agree to this statement then the reason should be added manually below.*
