Dear Sir/Madam,

Construction of new electrical substation, including 1 sub-station building (elevated) and 2 concrete bunds at land of Seagull Lane, Emsworth, Havant

Thank you for consulting Hampshire County Council on the above application. As the Minerals and Waste Planning Authority for the Havant Borough, we have the following comments to make.

The application site is located within a Mineral Safeguarding Area (MSA) which has underlying deposits of sand and gravel. However, due to the relatively small size of the development, we do not anticipate a significant degree of mineral sterilisation and therefore raise no objection to this application.

Yours faithfully,

Lewis Smith
Assistant Project Officer
