Rachael

RE: 7 North Close Wade Court Havant PO9 2SU.

In respect of the above application I have the following comments:

The trees to the rear of the site provide an important buffer from the road and should be protected during construction - there is an argument to protect these trees as a group via a TPO - this can be assessed later in the process once the application moves on from outline (if successful).

There are two very important Irish Yew trees that will require protection on site during any construction, however they offer no public amenity and as such can not be TPO'd.

I have no objection to this application if the above trees are retained and protected on site.

Thanks
Jamie
