

To Whom it May Concern

I can confirm that this building is to be used by my [REDACTED] uncle [REDACTED] who currently lives with us. Our property is a maisonette with its own outside access. There is a staircase to the accommodation which is laid out on the first and second floor of the property. My uncle is starting to find the stairs a bit of a struggle and the proposed annexe would solve much of our concerns for his future. This would also be beneficial in the event that he might need nursing care in the future. The annexe would give him excellent level access adjacent to where he parks his car and would also give him a good degree of independence.

I hope this clarifies our intentions for this project.
