No landscape objection to works proposed for 1No Holm Oak (T1).

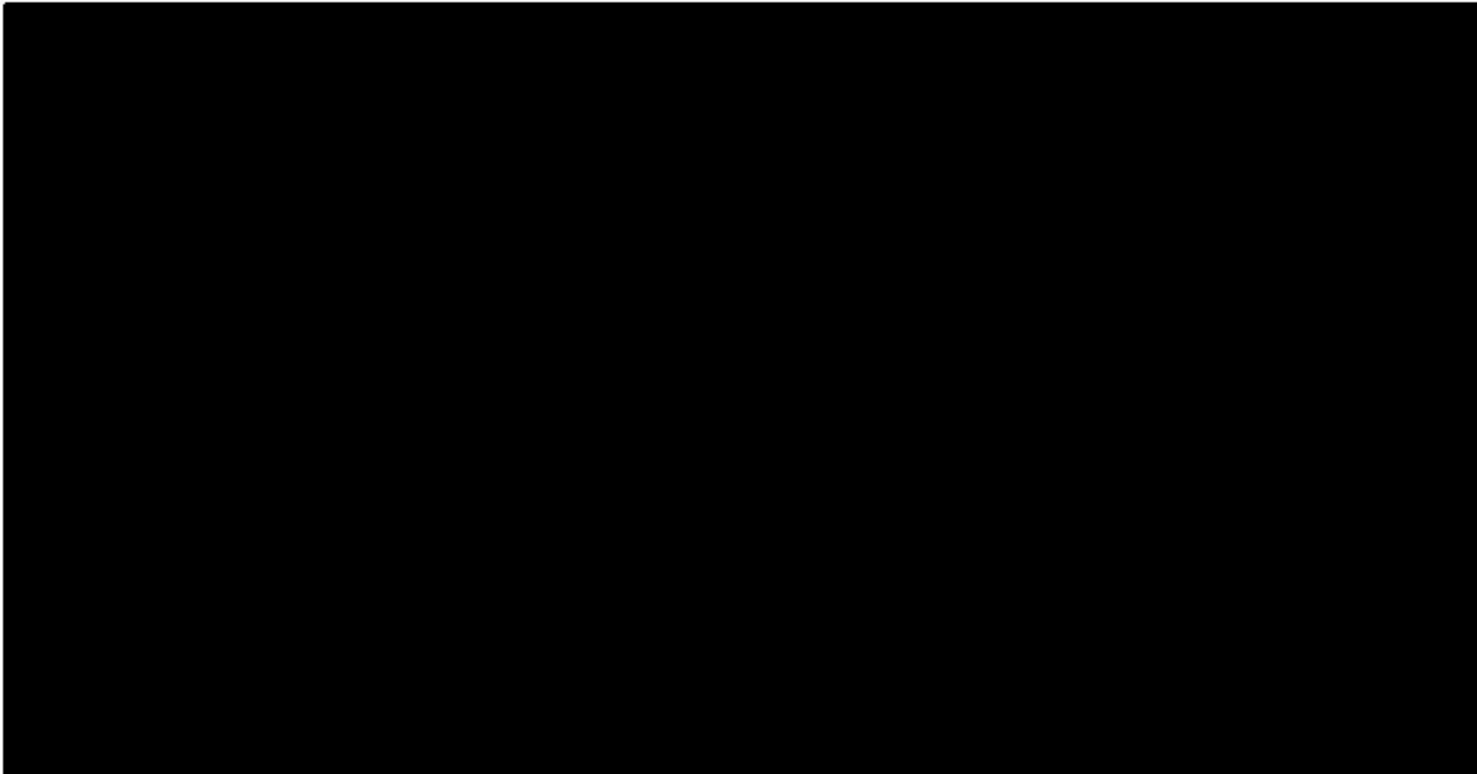

Landscape objection to proposed felling of 1no. Horse Chestnut tree (T1) subject to TPO 1528 – due to the visual prominence of this mature specimen within the historic streetscene (specific reference with in HBTLSA LCA24 below). Concerned that proposed replacement is too close in proximity to existing adjacent Cedar.

Extract below from LCA24 Emsworth – historic core within Havant Borough Townscape, Landscape and Seascape Character Assessment (HBTLSA) – highlighting the importance of existing mature trees to the landscape character:-

- These densely built frontages contrast with significant areas of open space providing large gardens to some of the properties, particularly to the rear of King/Queen Street, and to either side of Tower Street
- Mature trees in these gardens provide relief from the otherwise dense urban grain
- Another notable feature in the historic core of the town is that of boundary walls, which make a important contribution to the character of the streetscape. Whilst some of these utilise the local flint or stone, the majority of them are brick

Kind Regards
