Subject: Highway Consultation - Asda Stores, Hambledon road, Waterloooville ,PO7 7XR

Sally I have looked at the application and I have no highway objection to the proposal including the loss of existing parking spaces. However from a planning point of view I have mentioned to the applicant that the public and our members my have concerns that the loss of 45 parking spaces could affect the economic viability of the Town centre because off the loss of linked trips. The new Curzon road car park has provide additional spaces but this is a privately owned public car park and the site could be developed at some time in the future. It would be useful if the applicant could provide a survey of the existing use of the car park on a Friday evening and Saturday all day.
