Hi Michelle

Thank you for your email. In order to address your concern, should we opt for a private operator then we would ensure that the contractor is an approved member of the BPA British Parking Association, unless it's the local authority.

This, no doubt, will satisfy your management concerns.

Please confirm that this is acceptable.

Many thanks

Shaun Adams

Hi Michelle

I hope you are well.

I need to get the car parking planning condition signed off this week regarding the former Star PH as detailed below.

As previously discussed our proposal is as follows.

- 24 hour parking
- 50 pence for 30 minutes
- £5.00 all day

Our parking is aimed at short term town centre users and rail commuters.

Management will either be provided directly by the local authority or by a private organisation using number recognition cameras.

We do not intend to compete with the existing local authority car parks in the area as previously discussed.

Would you please confirm you are in agreement to the above.

In anticipation of the above being agreed would like to rearrange our meeting to discuss the potential leasing/management of the car park in partnership with the Borough.

I look forward to hearing from you.

Kind regards

Shaun Adams
Managing Director
