Why you think permission should
or should not be given

I totally agree with the Council's reasons for rejecting this application. As a designer and someone who admires modern architecture in a suitable setting, I consider that the design and scale of this development is totally inappropriate within the existing town-scape of Queen Street and the Emsworth conservation area. It would be more in-keeping to make the proposed building in traditional materials (such as brick) with detailing that reflects the Victorian industrial vernacular style surrounding this site.
