Your ref: APP/13/01145
Date: 07 February 2014

Dear Mrs Smith

**DISCHARGE OF CONDITION 6 OF PLANNING PERMISSION APP/10/00737 -
REMEDICATION METHOD STATEMENT**

**FORMER HAVANT BOROUGH COUNCIL DEPOT, SITE 4, HARTS FARM WAY,
HAVANT**

Thank you for consulting the Environment Agency on the above application, which was received on the 31 January 2014.

Environment Agency Position

We agree with the remedial method statement recommendations and validation proposals for the site. Therefore, we are in a position to recommend the Discharge of Condition 6 of Planning Permission APP/10/00737.

Advice to the Local Planning Authority / Applicant

We have reviewed the Remedial Method Statement submitted by Structural Soils Ltd. The updated information and conceptual site model for the water environment is satisfactory.

We support the programme of limited further investigation, particularly in the area of the underground tanks, comprehensive water monitoring, and the outlined discovery strategy. This will provide further informed information in the current status of the site.

If you have any queries regarding the information set out above, please contact me on the details below.

Yours sincerely

Environment Agency
