Subject: RE: Development site at Ports down Hill, UE5

This is a report on the existing situation, which will be looked at by the Highway Authority and the Highway Agency , and will help with the programming of any maintenance work or any future modification that may be needed. The building of the 47 extra dwelling will not justify refusal of the application on the grounds of severe residual cumulative impacts of the development on the highway network. My recommendation for approval remains the same.

Peter J Marshall BSc MCHIT

Development Engineer
