Subject: FW: Acolaid Case APP/14/01078

The Highway Authority has no adverse comment on this application. I suggest that Planning Authority conditions the shared area in front of the proposed units, shown on drawing 14A067006 is conditioned to be used for the parking and turning of vehicles in order to ensure that the parking meets the standard in the HBC Parking Standard. Also I suggest a condition should be applied with regard to cycle facilities.
