

Dear Mr Cantwell,

Planning Application APP/14/00798 12 West Street, Havant, PO9 1PF

Thank you for your recent consultation. The site lies within the historic core of Havant and within an area where the Roman settlement may exist. I note that the present application has only a minor extension of ground works to those permitted under 13/00891. I also note that no archaeological condition was attached to 13/00891. On that basis I would not raise any archaeological issues in relation to the minor amendment. However I would note the archaeological sensitivity of the area and would be grateful for the opportunity comments should the need for more substantial ground works arise.

Yours sincerely

David Hopkins
