Dear Madam

Development at London Road, Waterlooville

Havant Bridleway 17 runs through the middle of this development site, but it is not clear whether it will be retained as a public highway for horse-riders, pedestrians and cyclists only, or not. If it is intended to upgrade it to an adopted vehicular highway, then current users are entitled to a replacement as compensation for the loss of the recreational facility. The National Planning Policy Framework para.75 states that planning policies should protect and enhance public rights-of-way and access, and should seek opportunities to provide better facilities for users by adding links to existing networks. I am not in a position to make suggestions for a replacement path within your extremely tight deadline, but will be happy to discuss with you how this requirement can be met when the applicant has made his intentions clearer .

Yours faithfully

Brenda King
(District Access & Bridleways Officer, BHS (Hants.))
