Ask for Mr L Cairns
Date 29 May 2013

Dear Mrs Haywood

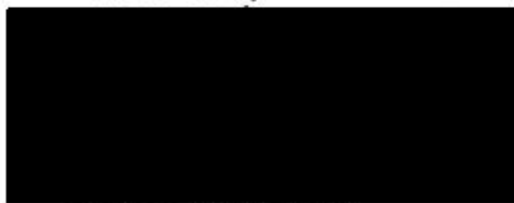

5 Warren Close, Hayling Island

Demolition of existing detached four bedroom two storey house and construction of a replacement four bedroom two storey house with attached garage. Amended application as approved under APP/12/00052 to include installation of roof mounted photovoltaic panels.

I refer to your letter dated 3rd May 2013 and the detailed drawings viewed on the Havant Borough Council website concerning the above planning application.

The planning sub committee write with disappointment that the original application was approved by the planning authority and that the objection raised was not given additional weight when determining the application. The Board consider the increase in bulk and height of the new building is not in the interest of conserving the landscape of the Harbour. In recognition that permission for the replacement property has already been granted and work started, the amended application to install roof mounted photovoltaic panels will not result in any further significant impact and have no further comment on this matter.

Yours sincerely

Havant Borough Council
