Afternoon Sally

Please find attached as we discussed earlier today our revised coloured site layout ref REDR130524CSL01RevB- coloured and revised details cross section drawing ref REDR130524 CWD-02-RevA-that shows the detail along the western boundary.

Both confirm the pedestrian connections that will be formed at 3 points to link the end of the turning head to the cycleway / footway. To the cross section drawing we have added an additional cross section showing the proposed

pedestrian links between the hedgerows and how they work with the levels. Each link will be 2.0m wide and surfaced in the same material as the cycleway / footway.

We have also resent to you the base black and white masterplan ref REDR130524SL01K which has also been modified to show the footway links so this revision K should replace earlier versions of the site layout drawing.

We have also updated the issue sheet to reflect the latest revisions to these drawings so it would be best if you use this to prepare your list of documents.

We have asked RPS to revise their landscape drawing and we will issue that to you digitally next week.

Best regards

Derek Brentnall BA Arch (Hons)
Associate Director
