Emsworth – Nore Farm Stream Flood Alleviation Scheme

Planning Application

Heritage Statement

Date: 30th March 2014

Version 3.0

Application to Havant Borough Council for the installation of a Flood Alleviation Scheme and wetland habitat to the North of A27 Emsworth.

Heritage Statement:

The proposed Flood Storage Area will not notably change the historic landscape character types and no impact is predicted as a result of the scheme.

There are no Listed Buildings, identified buildings of local interest or known archaeological sites in the area around the scheme. No impacts on built heritage assets are predicted to result from the proposed scheme.

No archaeological remains have been recorded in the Archaeology and Historic Building Records (AHBR), however the wider area of the site is known to have presented the potential for Roman, Iron Age and Bronze Age Archaeology, as a consequence a geophys study and a field evaluation trial trench are proposed prior to commencement of construction.

This approach has been agreed with the county archaeologist. A Written scheme of investigation will be submitted to the county archaeologist for their approval prior to commencement of the field evaluation.
