23rd April 2014

**THE LEOPARD PUBLIC HOUSE, 31 LONDON ROAD, WATERLOOVILLE,
PO7 5LG**

Dear Mr. Andrews,

Thank you for your letter of the 3rd April 2014 and the opportunity to comment upon the application. Having considered the application I have the following comments to make with reference to crime prevention.

Automatic Teller Machines (ATMs) offer a range of opportunities for crime. Those using and replenishing the machine are vulnerable and the machine itself can also be a target. Therefore, with this application I have three main concerns:

1. The safety of those using the Automatic Teller Machine (ATM)
2. The safety of those replenishing the ATM
3. The security of the ATM itself

The ATM is at the end of the building and set back from the front building line. To the side of the ATM is a space in which people might wait without being noticed. To provide for the safety of those using the ATM I recommend:

1. Closed Circuit Television (CCTV) cameras are deployed to provide images of those using the ATM and the area about the ATM.
2. An appropriate level of lighting is provided about the ATM. The lighting should work in conjunction with the CCTV system.

Hampshire Constabulary

Chief Constable Andy Marsh

The ATM appears to be easily accessible from the road. To provide for the security of the ATM itself I recommend:

1. The ATM is secured to the ground using a recognised fixing system
2. The installation of a monitored alarm system with appropriate sensors to detect early signs of an attack
3. Installation of robust bollards to the front of the ATM to frustrate a ram raid type attack.

From the plans supplied it appears that replenishment will take place from within the shop; with the replenishing operation being within sight of the public. To provide for the safety of those replenishing the ATM, I recommend:

1. The installation of CCTV cameras to provide images of the rear of the ATM.
2. The installation of a monitored alarm with a panic button for use by those replenishing the ATM

If I can be of any further assistance please do not hesitate to contact me.

Yours sincerely,

S York
