Dear Sir

Proposal: Part two storey, part single storey rear and side extension.

Site: 40 Newbarn Road, Havant, PO9 3PX.

APP/14/00281

Thank you for your letter of 09/04/2014.

Please find attached a plan of the sewer records showing the approximate position of public surface water sewer crossing the site. The exact position of the public surface water sewers must be determined on site by the applicant before the layout of the proposed development is finalised.

It might be possible to divert the public surface water sewer (375mm), so long as this would result in no unacceptable loss of hydraulic capacity, and the work was carried out at the developer's expense to the satisfaction of Southern Water under the relevant statutory provisions.

Should the applicant wish to divert apparatus:

1. The 375 mm diameter sewer requires a clearance of 3.0 metres either side of the public surface water sewer to protect it from construction works and allow for future access for maintenance.
2. The 600 mm diameter sewer requires a clearance of 3.5 metres either side of the public surface water sewer to protect it from construction works and allow for future access for maintenance.
3. No development or new tree planting should be located within 3.5 metres either side of the centreline of the public surface water sewer
4. No new soakaways should be located within 5 metres of a public surface water sewer.

5. All other existing infrastructure should be protected during the course of construction works.

Alternatively, the applicant may wish to amend the site layout, or combine a diversion with amendment of the site layout. If the applicant would prefer to advance these options, items (1) – (4) above also apply.

Due to changes in legislation that came in to force on 1st October 2011 regarding the future ownership of sewers it is possible that a sewer now deemed to be public could be crossing the above property. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its condition, the number of properties served, and potential means of access before any further works commence on site.

The applicant is advised to discuss the matter further with Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk.

In order to protect drainage apparatus, Southern Water requests that if consent is granted, a condition is attached to the planning permission. For example "The developer must advise the local authority (in consultation with Southern Water) of the measures which will be undertaken to divert the public sewers, prior to the commencement of the development."

Southern Water requires a formal application for any new connection to the public foul and surface water sewer to be made by the applicant or developer.

We request that should this application receive planning approval, the following informative is attached to the consent:

"A formal application for connection to the public sewerage system is required in order to service this development, Please contact Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk".

Yours faithfully

The map shows a residential area with a grid of streets and buildings. A network of red and blue lines is overlaid on the map, likely representing a utility or communication network. Numerous circular markers with numbers are scattered across the map, indicating specific points of interest or data collection. A large 'RECEIVED' stamp is visible in the top right corner.

Key features and labels on the map include:

- Streets:** GATWIKIN CLOSE, MATTHEWS CLOSE, NEWBORN WAY.
- Buildings:** Allotment Gardens, El Sub Sta, Nursing Home, Shelter.
- Network Lines:** Red dashed lines, blue dashed lines.
- Markers:**
