Barncroft Infant School

David regarding the above site.

My concerns regarding this proposal is the large scale removal of the trees on site, a mixed species copse of Sycamore, Ash, Field Maple, Birch. While these trees are in the main poor quality they significantly contribute to the local street scene and area. This is a site that could be managed and enhanced greatly, providing a natural oasis for the area or a woodland for Forest Schools for the Infants.

These comments are in line with my original comments made for the previous application.

I am unable to support this application.

Thanks

J
