Please can these tree comments be indexed to file 14/00087 and published on the web.

Thanks
Tina

APP/14/87 12 Hartwood Gardens

Tina

In respect of the above application I have the following comments:

No tree removal is required to facilitate this project. The supporting arboricultural evidence is comprehensive and provided that the methodology prescribed in this MS & TPP report is strictly adhered to (inclusive of site monitoring works) the Oak tree will survive the development unscathed and to continue to grow on safely and healthily in the future. Therefore I have no objections to this scheme in arboricultural terms.

If permission is given for this project to proceed then a condition must be applied whereby the AIA and MS is adhered to along with arboricultural supervision from the applicants Arb Consultant.

Thanks
J
