Highway Comments

There should be a reduction in traffic and parking requirement from A1 to C3 therefore there are no highway objections to the change in use. The new use needs to meet HBC parking standards therefore the correct number of parking spaces need to be marked for the dwelling. From the attached plans it was difficult to see if this is one house or 2 flats, I am therefore assuming the requirement is 2 parking spaces (this either allows for 1 for each 1 bed flat or 2 for a 2/3 bed house)

Regards
Tracey
