Subject: APP/14/00434, Former Dunsbury Hill Farm, Woolston Road, Havant

Good morning Tina,

I have looked at this application and in term of the actual mast, I have no adverse comment. However my concerns are with the equipments used to power the mast itself in term of potential noise affecting local residents. Although the site is not close to any dwellings (that I can see on the plan) It is worth mentioning that the potential for noise breaking out from the various cabinets may travel over the A3M (particularly in the night time hours when the traffic subsides)

If the applicant have some sort of acoustical data relating to noise levels from each cabinets and also combine output, I would be able to inform you more accurately.

I hope this helps

kind regards

Laurent
