Dear Planning,

As you will be aware the current adverse weather conditions are set to continue. Parts of Sussex, Hampshire and Isle of Wight are at continued risk of tidal and river flooding and groundwater flooding poses an ongoing risk. This week will see high sea levels combined with strong winds and large waves will increase the risk of coastal flooding along the south west and southern coasts.

We are having to prioritise any incident related work and this may mean that we are unable to meet some of our deadlines. Therefore, could we please have formal extensions to our response deadlines for the following planning applications:

13/02843

Land at Old Park Farm

Please note, no Flood Risk Assessment (FRA) has been submitted to support this application. We will not be in position to fully review the application until a FRA has been submitted.

14/00068/REM

Newlands Phase 1 Hambledon Road

We thank for your understanding.

Kind regards,

Verity

Verity Giles
