Hi Sally,

Just to confirm I concur with Tristan on this. I will be speaking to WYG shortly and asking them to submit something formally to Havant as a mitigation proposal to be secured by S.106.

Thanks
Simon

We are here to secure a healthy natural environment for people to enjoy, where wildlife is protected and England's traditional landscapes are safeguarded for future generations.

In an effort to reduce Natural England's carbon footprint, I will, wherever possible, avoid travelling to meetings and attend via audio, video or web conferencing.

If you are trying to make a request for a copy of your personal information under the Data Protection Act 1998, or a request for information under the Freedom of Information Act 2000 or Environmental Information Regulations 2004, please contact the Enquiry Service on 0845 600 3078 or email foi@naturalengland.org.uk.

Hi Sally,

Just a quick one on this application. I have now spoken to Simon Thompson at NE in relation to the recent email from WYG regarding potential mitigation measures. I concur with Simon that some commitment to provide a rotational cropping regime favourable to both brent geese and waders is the most sensible option. This will be in accordance with the SINC designation (although there is a wider issue with HBC allocating brent goose SINCs) as well as minimising risk of the field becoming a dog walking area for new residents.

I will expect WYG to provide a fully-detailed mitigation plan which can then be conditioned in order to secure the ongoing management of the field for birds.

Hope this suffices for the meantime – as ever, if you have any queries pleased don't hesitate to contact me.

Kind regards,

Tristan
