Thanks Pip, shall I carry over your comments from the previous application?
Jenna

I am happy to support the reason for refusal.

Regard Pip

Hi Pip,
I hope you had a great Christmas.

Many thanks for your comments below. This is revised application, no changes have been submitted as part of the proposal but it has been resubmitted at a Councillors request so that it can be looked at again before the committee. My recommendation is still to refuse with one of the reasons being a loss of a parking space because the garage is too small.

If possible please can I ask why you have changed your mind on this one? The committee report has now been complied and includes your original comments and the loss of a parking space as a reason for refusal.

Many thanks
Jenna

This proposed garage is below the size specification for a standard garage that would be required in a new development. However the householder has applied for permission and it therefore meets their requirement so I have no adverse comments on this application subject to a condition requiring a dropped kerb.
