Importance: High

Hi Daphney

Waste and recycling provision for householders would be minimum of 2 x 240 litre wheeled bin maximum or 5 for the larger families (if they take on the garden waste scheme). I have looked at the map of the vehicle movements and I can not see any major problems, however a number of the access roads with no turning point may be difficult to reverse in or out of if cars are parked near the corners. If this could be taken into consideration as with the following conditions considered:

All access/service Roads need to be capable of taking a 26 tonne Refuse Collection Vehicle and allow vehicle to reverse close to bin store or containment area. Width of RCV 2.8m, maximum length 11.3m.

No bins to be pulled or waste carried more than 25 metres.

Thanks

Sally Smith - Waste Strategy Team Leader
