7 **Planning Considerations**

Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

The tree subject of this application is a mature oak offering good public amenity value to the local area. The works applied for should not detriment the public amenity offered or negatively impact on the health of the tree.

8 **Conclusion**

Recommend permission.
